

JOINT RANGE EXTENSION (JRE) APPLICATION PROTOCOL (AP) (JRE(AP))

Course Syllabus Overview

Duration – 1 day

The aim of the course is to provide students with a comprehensive understanding of the Joint Range Extension Application Protocol (JREAP).

The course has referenced both Allied Tactical Data Link Publications (ATDLPs) and United States (US) Military Standards (MIL-STDs) documentation, with particular focus on ATDLP-5.18 and MIL-STD-3011.

Training delegates receive unlimited access to the SyntheSys Defence Community Portal, which is designed to enhance and support the training experience. Delegates can access course information, download copies of course material, and also benefit from the other tools within the portal. For more information on the portal, [click here](#).

Day 1

- JRE Introduction
- Full Stack & Application Layer
- JREAP Messages
- Overview of MIL-STD-3011 Appendices A, B & C
- OPTASK Link JRE
- JREAP Practical

About SyntheSys

SyntheSys provides defence systems, training, systems and software engineering and technical management services over a spectrum of different industry sectors. Along with distinct support and consultancy services, our innovative product range makes us first choice provider for both large and small organisations. Established in 1988, the company focus is on fusing technical expertise with intuitive software applications to solve common industry challenges.
