

LINK 11

Course Syllabus Overview

Duration – 1 day

The aim of the course is to provide students with a comprehensive understanding of both the Link 11 System and its operational use. The course has referenced both Allied Tactical Data Link Publications (ATDLPs) and United States (US) Military Standards (MIL-STDs) documentation.

This course is primarily aimed at those personnel who require a thorough understanding of Link 11. As such, the syllabus has been designed to cover both technical and operational employment of Link 11. The course covers both Link 11 and Link 11B.

Training delegates receive unlimited access to the SyntheSys Defence Community Portal, which is designed to enhance and support the training experience. Delegates can access course information, download copies of course material, and also benefit from the other tools within the portal. For more information on the portal, [click here](#).

Day 1

- Introduction to Link 11
