

Ensuring IBM® Tools Work for you - IBM® Engineering Lifecycle Optimization - Publishing

Tool-Supported Systems Engineering

We specialise in tool-supported systems engineering – providing our Customers with affordable systems engineering tools to increase their efficiency and effectiveness in delivering solutions to their Customers.

As an IBM Watson Internet of Things (IBM Watson IoT™) Gold Business Partner, SyntheSys provides a unique blend of application knowledge, experience and a flexible delivery mechanism, which provides Customers with the right software solution and a deeper understanding of the tools to ensure maximum benefit.

Our ability to work with IBM® to distribute Watson IoT™ software is built on a firm foundation of industry know-how and extensive knowledge of the IBM® IoT™ tools which enables us to distribute the tools in a value-added way. Our broad expertise of IBM® solutions makes us best placed to offer a value-added service. Our offerings stretch much further than the deployment of technology.

IBM® Engineering Lifecycle Optimization – Publishing Functionality

The tool offers powerful, automated documentation generation functionality which helps organisations generate documents for in-house review purposes, contractual obligation, or compliance with standards:

- Synchronised document generation to meet the needs of your stakeholders from a single template, which reduces the risk of error;
- Various output formats which can be presented in multiple ways, to improve Customer communication and satisfaction;
- Allows you to integrate data from multiple sources to create reports and automatically generate required documents.

We offer flexible licensing options, training and mentoring services in IBM® Engineering Lifecycle Optimization - Publishing.
